Advantage Feeders / **3IN1FEEDERS** Consumption Log

Flock/mob name		Feed type	
Qty of stock in flock/mob (*d*)			
Feeder number		Density* (*b*)	

Date	Days since last checked (*e*)	Volume (m^3) (*a*)	Kg consumed (*c*)	Grams/head/day

How these calculations are performed

Volume = feed level inspected against the volume sticker

Kg consumed = ((*a*) - current volume) x (*b*)

Grams/head/day = (*c*) / ((*d*) x (*e*)) x 1000

* Note: See the Calculating Feed Outflow SOP
